dislocations, open reduction of: indications and operative techniques (Green and O'Brien), 250
tunnel decompression, more complications in (letter) (Das), 497; reply (MacDonald), 497
syndrome, complications of surgical release for (MacDonald et al.), 70
intraoperative changes in motor nerve conduction latency in (Eversmann and Tirsick), 77
personal observations on role of lumbrical muscles in (Jabaley), 82
Carpi radialis longus, extensor, transfer in theumatoid hand, clinical and experimental studies on effect of (Boyce et al.), 390
Carpometacarpal joint disease, rheumatoid, interpositional arthroplasty for (Millender et al.), 533
dislocation, multiple volar. Case report of traumatic volar dislocation of medial four carpometacarpal joints in child and review of literature (Kleinman and Grantham), 377
Carpus, anatomic dissection relating posterior interosseous nerve to, and etiology of dorsal wrist ganglion pain (Dellon and Seif), 326
Cell, giant, tumor of tendon sheath, ulnar tunnel syndrome from: case report (Hayes), 187
Central slip release, Fowler's use of: chronic mallet finger (Bowers and Hurst), 373
Chickens, nutrient pathways to flexor tendons of, using tritiated proline (Manske, Bridwell, and Lesker), 352
Chondromas of hand, bilateral extraossessous, in patients with chronic renal failure (Dellon, Weiss, and Mitch), 139
Chondrosarcoma of trapezium: case report (Granberry and Bryan), 277
Clenched-fist injury, infections following: new perspective (Goldstein et al.), 455
Clotting mechanism, pharmacological alterations in: use in microvascular surgery (Ketchum), 407
Club, Australian Hand (proceedings), 495
Israel Hand (proceedings) (Kessler), 293
Colloid milium of hand, treatment of, by dermabrasion (Apfelberg et al.), 98
Congenital deformities, multiple, duplication of palmar skin in patient with (Herndon and Swanson), 370
nail anomalies, two families with: nail formation in ectopic areas (Miura), 348
Connective tissue disease, mixed, hand in (Lewis et al.), 217
Contracture deformity, digital, after implantation of silicone prosthesis: light and electron microscopic study (Chamay and Gabbiani), 266
Dupuytren's (letter) (Beltran), 299; reply (Su, Wilgis, and Hoopes), 299

Cysts, aneurysmal bone, occurring in metacarpals: report of three cases (Burkhalter, Schroeder, and Eversmann), 579

D

Decompression, carpal tunnel, more complications in (letter) (Das), 497; reply (MacDonald), 497
Dermabrasion, treatment of colloid milium of hand by (Apfelberg et al.), 98
Devascularization, effect of, on regeneration of lacerated peripheral nerves: experimental study (Starkweather et al.), 163
Diabetes mellitus, immune competence and: pyogenic human hand infections (Mandel), 458
Digital amputation, false aneurysm of hand secondary to: case report (Hentz, Jackson, and Fogarty), 199
  contracture deformity after implantation of silicone prosthesis: light and electron microscopic study (Chamay and Gabbiani), 266
  pulley reconstruction employing always present rim of previous pulley (Kleinert and Bennett), 297
  replantation, temperature monitoring in (Stirrat et al.), 342
  sensibility following replantation (Gelberman et al.), 313
  skeleton, intraosseous wiring of (Lister), 427
Dislocation(s), carpal, open reduction of: indications and operative techniques (Green and O'Brien), 250
  chronic recurrent, of proximal interphalangeal joint of finger (Palmer and Linscheid), 95
  complete, of thumb metacarpal (Moore, Webb, and Thompson), 547
  unstable fracture, of proximal interphalangeal joint of fingers: preliminary report of new treatment technique (Agee), 386
Dissecans, osteochondritis, and brachymesophalangia: hereditary syndrome (Andrén, Carstam, and Lindén), 117
Distal phalanx, treatment of mallet finger due to intra-articular fracture of (Hamas, Horrell, and Pierrett), 361
Dog, freeze-dried flexor tendon grafts in, evaluation of (Potenz and Melone), 157
Doppler hemodynamic assessment of obscure symptomatology in upper extremity (Gross and Louis), 467
Dorsal wrist ganglion pain, etiology of, and anatomic dissections relating posterior interosseous nerve to carpus (Dellon and Seif), 326
Dupuytren's contracture, pathogenesis of: correlative clinical pathological study (Chiu and McFarlane), 1
  (letter) (Beltran), 299; reply (Su, Wilgis, and Hoopes), 299
Dysplasia, congenital radial, abductor digiti minimi opponensplasty in (Manske and McCarroll), 552

E

Ectopic areas, nail formation in: two families with congenital nail anomalies (Miura), 348
Elbow, technical problems with ulnar nerve transposition at: findings and results of reoperation (Broudy, Leffert, and Smith), 85
Extensor(s) carpi radialis longus transfer in rheumatoid hand, clinical and experimental studies on effect of (Boyce et al.), 390
  and flexor muscles, extrinsic, of hand, clinical study of forces generated by intrinsic muscles of index finger and (Ketchum et al.), 571
  radial wrist, common variations of (Albright and Linburg), 134
Extraosseous chondromas of hand, bilateral, in patients with chronic renal failure (Dellon, Weiss, and Mitch), 139
Extremity, upper, Doppler hemodynamic assessment of obscure symptomatology in (Gross and Louis), 467
  S-H-A-F-T syndrome in (Wallace and Fitzmorris), 492

F

False aneurysm of hand secondary to digital amputation: case report (Hentz, Jackson, and Fogarty), 199
Femoris, rectus, muscle and composite skin transplantation by microneurovascular anastomoses for avulsion of forearm muscles: case report (Schenck), 60
Fiber/receptor system, quickly adapting, clinical evaluation of: moving two-point discrimination test (Dellon), 474
Finger, chronic mallet: use of Fowler's central slip release (Bowers and Hurst), 373
  recurrent dislocation of proximal interphalangeal joint of (Palmer and Linscheid), 95
  flexion, active, free muscle transplantation to provide (Manktelow and McKee), 416
  intrinsic-minus, mechanism of: biomechanical study (Micks, Reswick, and Hager), 333
  mallet, treatment of, due to intra-articular fracture of distal phalanx (Hamas, Horrell, and Pierrett), 361
Fist, clenched-, injuries, infections following: new perspective (Goldstein et al.), 455
Fistulas, congenital arteriovenous, of hand (Gelberman and Goldner), 451
Flap(s), free microvascular, use of, from nonreplantable part: mutilating multidigital injuries (Alpert and Buncke), 196
  neurovascular free, from foot for innervation of hand (Morrison et al.), 235
Flexion, active finger, free muscle transplantation to provide (Manktelow and McKee), 416
Flexor and extensor muscles, extrinsic, of hand, clinical study of forces generated by intrinsic muscles of index finger and (Ketchum et al.), 571
  tendons, experimental intrinsic healing of, based upon synovial fluid nutrition (Lundborg and Rank), 21
    nutrient pathways to, of chickens using tritiated proline (Manske, Bridwell, and Lesker), 352
    using hydrogen washout technique (Manske, Whiteside, and Lesker), 32
  tenosynovectomy in rheumatoid finger (Ferlic and Clayton), 364
  tenosynovitis, pyogenic, closed tendon sheath irrigation for (Neviaser), 462
Fluid, synovial, nutrition, experimental intrinsic healing of flexor tendons based upon (Lundborg and Rank), 21
Foot, neurovascular free flaps from, for innervation of hand (Morrison et al.), 235
Forearm, determination of moments for extension of wrist generated by muscles of (Ketchum et al.), 205
  muscles, avulsion of, rectus femoris muscle and composite skin transplantation by microneurovascular anastomoses for: case report (Schenck), 60
Fowler's central slip release, use of: chronic mallet finger (Bowers and Hurst), 373
Fracture(s) dislocations, unstable, of proximal interphalangeal joint of fingers: preliminary report of new treatment technique (Agee), 386
  scaphoid waist, experimental approach to mechanism of (Weber and Chao), 142
  -subluxation, chronic, of proximal interphalangeal joint (Donaldson and Millender), 149
Fractured data? (letter) (Hager), 602; reply (Millender), 602
Francaise, Societe, de Chirurgie la Main (G.E.M.), autumn congress of, 1977 (proceedings) (Gallagher), 395
Freeze-dried flexor tendon grafts in dog, evaluation of (Potenza and Melone), 157

French Society for Surgery of the Hand, spring meeting of (proceedings) (Tubiana), 598
Function of hand, apparatus to assess (Walker, Davidson, and Erkman), 189

G

Gas, blood, tensions, tissue and, acute effects of tourniquet ischemia on, in primate limb (Miller et al.), 11

Immune competence and diabetes mellitus: pyogenic human hand infections (Mandel), 458
Implants, silicone trapezium metacarpal, results follosing removal of (Weilby and Søndorf), 154
Infections, pyogenic human hand: immune competence and diabetes mellitus (Mandel), 458
Interosseous nerve, posterior, anatomic dissections relating, to carpus, and etiology of dorsal wrist ganglion pain (Dellon and Seif), 326
Interphalangeal joint, proximal chronic fracture-subluxation of (Donaldson and Millender), 149
of finger(s) chronic recurrent dislocation of (Palmer and Linscheid), 95
unstable fracture dislocations of: preliminary report of new treatment technique (Agee), 386
Interphalangeal joint—Cont'd
unstable, reconstruction of: double superficialis tenodesis (Lane), 368
Intra-articular fracture of distal phalanx, treatment of mallet finger due to (Hamas, Horrell, and Pierrett), 361
Intraosseous wiring of digital skeleton (Lister), 427
Intravenous regional anesthesia, improved, for surgery of hand, wrist, and forearm. Second wrap technique (Haas and Landeen), 194
modified (letter) (Crawford), 497; reply (Haas), 498
Intrinsic-minus finger, mechanism of: biomechanical study (Micks, Reswick, and Hager), 333
Irrigation, closed tendon sheath, for pyogenic flexor tenosynovitis (Neviaser), 462
Ischemia, tourniquet, acute effects of, on tissue and blood gas tensions in primate limb (Miller et al.), 11
Israel Hand Club (proceedings) (Kessler), 293

J

Joint dislocation, multiple volar carpometacarpal. Case report of traumatic volar dislocation of medial four carpometacarpal joints in child and review of literature (Kleinman and Grantham), 377
proximal interphalangeal, chronic fracture-subluxation of (Donaldson and Millender), 149
of finger(s) chronic recurrent dislocation of (Palmer and Linscheid), 95
unstable fracture dislocations of: preliminary report of new treatment technique (Agee), 386
unstable proximal interphalangeal, reconstruction of: double superficialis tenodesis (Lane), 368

L

Lacerated peripheral nerves, effect of devascularization on regeneration of: experimental study (Starkweather et al.), 163
Ligament rupture, management of post-traumatic instability of wrist secondary to (Palmer, Dobyns, and Linscheid), 507
(SORL), spiral oblique retinaculer (Thompson, Littler, and Upton), 482
Longus, extensor carpi radialis, transfer in rheumatoid hand, clinical and experimental studies on effect of (Boyce et al.), 390
Lumbrical muscles, anomalous, in hand: case report (Durksen), 550
personal observations on role of, in carpal tunnel syndrome (Jabaley), 82
Lupus hand: new surgical approach (Hastings and Evans), 179

Macrodactyly, peripheral nerve hamartoma with, in hand: report of three cases and review of literature (Frykman and Wood), 307
Malignant hemangioendothelioma in hand: case report (Patel, Srinivasan, and Pearlman), 585
Mallet finger, chronic: use of Fowler's central slip release (Bowers and Hurst), 373
treatment of, due to intra-articular fracture of distal phalanx (Hamas, Horrell, and Pierrett), 361
Metacarpal(s), aneurysmal bone cysts occurring in: report of three cases (Burkhalter, Schroeder, and Eversmann), 579
implants, silicone trapezium, results following removal of (Weilby and Søndorf), 154
osteoblastoma of: case report (Mosher and Peckham), 358
thumb, complete dislocation of (Moore, Webb, and Thompson), 547

Metacarpophalangeal joint of thumb, assessing ulnar instability of (Palmer and Louis), 542
Metaststic tumors of hand: report of six cases (Wu and Guise), 271
Microneurovascular anastomoses, rectus femoris muscle and composite skin transplantation by, for avulsion of forearm muscles: case report (Schenck), 60
recovery of function in free muscle transplants using (Terzis et al.), 37
Microsurgical operating table, universal (Gordon and Buncke), 101
Microvascular flap, free, use of, from nonreplantable part: mutilating multidigital injuries (Alpert and Buncke), 196
second toe transfer for digital reconstruction (O'Brien et al.), 123
surgery, pharmacological alterations in clotting mechanism, use of, in (Ketchum), 407
Milium, colloid, of hand, treatment of, by dermabrasion (Apfelberg et al.), 98
Mixed connective tissue disease, hand in (Lewis et al.), 217
Moments for extension of wrist generated by muscles of forearm, determination of (Ketchum et al.), 205
Motor nerve conduction latency in carpal tunnel syndrome, intraoperative changes in (Eversmann and Tirsick), 77
Multidigital injuries, mutilating: use of free microvascular flap from nonreplantable part (Alpert and Buncke), 196
Mutilating multidigital injuries: use of free microvascular flap from nonreplantable part (Alpert and Buncke), 196
Muscle(s), anamalous lumbrical, in hand: case report (Durksen), 550
forearm, avulsion of, rectus femoris muscle and composite skin transplantation by microneurovascular anastomoses for: case report (Schenck), 60
free, transplants, recovery of function in, using microneurovascular anastomoses (Terzis et al.), 37
intrinsic, of index finger and extrinsic flexor and extensor muscles of the hand, clinical study of forces generated by (Ketchum et al.), 571
lumbrical, personal observations on role of, in carpal tunnel syndrome (Jabaley), 82
rectus femoris, and composite skin transplantation by microneruovascular anastomoses for avulsion of forearm muscles: case report (Schenck), 60
transplantation, free, to provide active finger flexion (Manktelow and McKee), 416

T

Table, universal microsurgical operating (Gordon and Buncke), 101
Temperature monitoring in digital replantation (Stirrat et al.), 342
Tendon(s), flexor, experimental intrinsic healing of, based upon synovial fluid nutrition (Lundborg and Rank), 21
nutrient pathways to, of chickens using tritiated proline (Manske, Bridwell, and Lesker), 352
using hydrogen washout technique (Manske, Whiteside, and Lesker), 32
grafts, freeze-dried flexor, in dog, evaluation of (Potenza and Melone), 157
sheath irrigation, closed, for pyogenic flexor tenosynovitis (Neviaser), 462
ulnar tunnel syndrome from giant cell tumor of (Hayes), 187
superficialis, use of, for digital extension: tendon transfers for radial nerve palsy (Chuinard et al.), 560
transfer(s), palmaris longus, for augmentation of thenar musculature in low median palsy (Braun), 488
for radial nerve palsy: use of superficial tendons for digital extension (Chuinard et al.), 560

Tenodesis, double superficialis: reconstruction of unstable proximal interphalangeal joint (Lane), 368
Tenosynovectomy, flexor, in rheumatoid finger (Ferlic and Clayton), 364
Tenosynovitis, pyogenic flexor, closed tendon sheath irrigation for (Neviaser), 462
Thenar musculature, palmaris longus tendon transfer for augmentation of, in low median palsy (Braun), 488
Thumb, arterial blood supply of, medical and surgical importance of (Parks, Arbelaez, and Horner), 383
assessing ulnar instability of meatcarpophalangeal joint of (Palmer and Louis), 542
metacarpal, complete dislocation of (Moore, Webb, and Thompson), 547
polydactyly of: abnormal anatomy and treatment (Marks and Bayne), 107
triphalangeal, polydactyly and (Wood), 436
"Tie-in" trapezium prosthesis: long-term results (Poppen and Niebauer), 445
